HACKER™

ACTIVISION ®

LOGON PLEASE:

What's going on here? Who are these guys? What are they doing? What am I doing?

In Hacker, it's up to you to figure it out. We can't tell you. We won't tell you. As every hacker knows, there just aren't any instructions for this kind of thing.

TEMPTATION.

To stumble into somebody else's computer system. To be some-place you're really not supposed to be. And to get the

strange feeling that it really does matter. "LOGON PLEASE:" is all you get to start with. That's it. From there, it's up to you. If you're clever enough and smart enough, you could discover a world you've never before experienced on your computer. Very tempting.

ACTIVISION
HOME COMPUTER SOFTWARE™

YET ANOTHER TEMPTATION.

HACKER HINTS

It's about the instructions for Hacker. There aren't any. (After all, if you really accidentally stumble into someone else's computer system, no one will be there to help you.)

If you get _really_ stuck, we can provide a set of "Hacker Hints." (Details on enclosed card.) However, this is a temptation you should resist, if you can.
